# Charter of the Kingdom of Dixie

I. Since the fall of the government of the Confederate States of America in 1865, the people of Dixie have lacked a state that represents their interests. I, William Tyler Spaugh, establish the Kingdom of Dixie on this twenty-first day of April 2025 to represent the interests of the people of Dixie. This Kingdom is the full successor state to the original Confederate States of America. There is no other successor state to the Confederate States of America, and there can be no other such successor state in the future. This Kingdom's territory is all territory held and claimed by the Confederate States of America throughout its existence.

II. All governmental authority will be vested in one king. The first king of Dixie is William Tyler Spaugh of North Carolina. The king has full authority to modify this Charter, including the potential conversion of this Kingdom into a different form of government in the future, but sections I, III, IV, and V may never be modified in any way. This section may not be modified to allow for the modification of sections I, III, IV, and V.

III. The existence and survival of this Kingdom is predicated on the completion of certain conditions. These conditions include the successful completion of a game of Crusader Kings III. The beginning of this game will be livestreamed on the YouTube channel @grovetyler starting at 6 p.m. eastern time on April 21st, 2025. This livestream will last until my character becomes a Duke. A video showing the end of that game must be posted to the same channel, with proof that this is the same game as the original streamed game. This can be shown by showing that my original character's memories match the events of the first stream and that the game is in ironman mode. I must complete this game without hitting the game over screen, and the videos must not be deleted. This must be completed by New Year's Day 2026. Failure to complete these conditions is a failure of this Charter and of the Kingdom of Dixie, a failure which will cause them to cease to exist. The realm created by my character in this game shall serve as a symbolic and ceremonial representation of the Kingdom of Dixie.

IV. The United States Federal Government will have the opportunity to directly challenge this realm in a multiplayer match. This charter will be sent to the official White House X (formerly Twitter) account at least an hour in advance of the beginning of the stream. The United States Federal Government may then coordinate to have as many players as it wishes join this stream in a multiplayer match by emailing DixieCharter@proton.me and expressing their desire to challenge this realm in a multiplayer match. If no email is delivered to DixieCharter@proton.me by the start of the stream, then the United States Federal Government is implicitly agreeing to have the game's AI stand in for itself. If the United States Federal Government sends its representative(s) to participate in this multiplayer match, then this game will not be played in ironman because it is an impossibility to play a multiplayer game in ironman.

V. In the past I have attempted to create other versions of successor states to the Confederacy and a variety of Confederate Constitutions, swearing oaths to some of these. In the name of the same Almighty God invoked by the Constitution of the original Confederate States of America, I repudiate all other past and future attempts to create any such thing. Any attempt at all in the future to create any successor state to the Confederacy, another Confederate Constitution, or to swear any other oath shall also constitute a failure of this Charter and of the Kingdom of Dixie, a failure which will cause them to cease to exist. I swear before the Almighty God that any such attempt is preemptively void, and that I will not and cannot create any such successor sate or Constitution or swear any other oath. This is an impassable barrier to creation of any such successor state or Constitution, or the swearing of any other oath, because none of these things may be done in the absence of the Almighty God.

So help me God,

-William Tyler Spaugh, King of Dixie, April 21, 2025
